Russians, Germans and Austrians in Terrible Hand-to-Hand Conflict in Trenches.

NO MATERIAL ADVANCE**Wounded Pour Into Hungary—Men Lie for Hours Without Aid—Many Partially or Totally Blind.**

Geneva, Feb. 26, via Paris, 5:15 a. m.—The fighting in the Carpathian mountains between Russians and Germans and Austrians is becoming rapidly much like siege warfare, according to dispatches receiving Geneva from points near the line of battle.

These messages declare that since February 8 over 200,000 men have been fighting hand-to-hand in the Carpathian trenches without making any material advance. The wounded are pouring into Ungvar and Eperies, in Hungary. During the night of Friday, February 19, taking advantage of a lull in the hostilities, the Austrians picked up at Svidnik 8600 wounded men and over 8000 dead. The wounded had been lying on the ground—some of them for 18 hours—without food or succor. A chief officer of the Austrian medical department is authority for the estimate that 70 per cent of them will be invalids for life.

A majority of the wounded at Svidnik were injured in the head by blows from rifle butts, and 20 per cent of them will be either partially or totally blind.

WALTER JOHNSON TOLD TO REPORT**Premier Pitcher Expected at Federal Training Camp at Shreveport, Louisiana.**

Chicago, Feb. 26.—Walter Johnson, premier pitcher of the American league, who jumped to the Chicago Federals from the Washington Americans last fall and then jumped back, has been notified to report for spring training at Shreveport, La., on March 6, by Manager Tinker of the Chicago Federal club announced today.

Johnson, Tinker said, had been sent the same letter that went to other players who will go direct from their homes to the camp. He said he advised Johnson not to report to Washington, in the event that he had decided to join the Federals, until after the United States Judge Landis announces his decision in the Federal league anti-trust.

This decision may determine Johnson's case, Tinker said, "and I understand he has decided to go wherever Judge Landis decides he belongs."

FEW DESERTIONS FROM U. S. NAVY

Washington, Feb. 26.—Desertions among the enlisted men of the Atlantic battleship fleet during last December totaled only 74, the commander-in-chief of the fleet has just reported to the navy department. Department officials are highly gratified over the record.

A large number of vessels, including several battleships, had no desertions. The active destroyer flotilla and the reserve torpedo flotilla reported but one desertion in each. The submarine craft, including those at Panama, had none. During the month leave or liberty was granted on 184,336 occasions and in but 1164 instances was the liberty or leave overstayed.

LAPSE OF MEMORY CAUSES AN ARREST

Salem, Ore., Feb. 26.—Lapse of memory that caused him to be taken to an insane asylum for observation, led to the arrest here yesterday of O. J. Rose, who is accused of having passed worthless checks in the sum of \$3000 at St. Joseph, Mo.

Rose, it is said, was a commission merchant at St. Joseph, having left there last August. He was traced to California, where the trail was lost. Last Monday a man was picked up on the streets here, unaware of his identity or whence he had come. At the asylum to which he was taken the name "O. Rose" was found printed on his clothes and the police identified him as the St. Joseph merchant. He was rational last night and, it is said, admitted he was Rose and that he had been in trouble in St. Joseph. He was removed to the county jail.

German Measures to Invest Verdun Prove Both Costly and Useless.

LINES ARE UNCHANGED**Desperate Hand-to-Hand Engagements at Disparages Finally End With Heavy German Losses.**

Paris, Thursday, Feb. 25, 11:50 p. m.—Military activities in the vicinity of Verdun in the month of February are described in an official recital given out in Paris tonight which reads as follows:

The investment of Verdun always has been one of the objects of the German general staff, and the measures they have taken to this end have been both costly and useless. The German offensive movement to the southeast of the entrenched camp of the Meuse was checked at St. Mihiel and the enemy could not advance against the eastern defenses of this locality.

Line of Battle Unchanged.

"Along the heights of the Meuse, the line of battle has remained unchanged for several months. When the Germans moved forward they were successful in gaining a foothold northeast of St. Mihiel. They occupied Vigneulles and Hattochetal and the forest of Montagne. Further to the north, however, they could not maintain their former gains and later French troops occupied the northern extremity of the heights of the Meuse.

"At the village of Desparages, in a valley of the Meuse, the enemy had taken a strong position, but we were successful in driving them from it in spite of their fierce defense."

Violent Fighting Finally Ends.

Continuing the recital says that the attacks on Desparages were begun by sniping operations. This was followed by the explosion of mines, and the excavations thus made were used by the French soldiers as points of protection, while they waited for the artillery to open the way. The fighting was marked by hand-to-hand engagements of great violence. In one trench alone the Germans left 200 dead; survivors to the number of twenty-five surrendered. Attacks and counter attacks on these positions continued with rapidity. The fighting finally came to end February 21 with victory for the French. The losses of the enemy are estimated at 3000 men, being one-half of their total strength engaged.

THREE WARSHIPS ARE DAMAGED**Constantinople Reports Bombardment of Dardanelles Forts by Ten Allied Vessels.****FORTS ARE REDUCED****Sixty Days' Fight in Straits—Vast Amount of Wheat to Be Unlocked.**

Constantinople, Feb. 26, via London, 1:33 p. m.—Three warships of the allies were damaged in the bombardment of the Dardanelles forts February 25, according to an announcement given out today at the headquarters of the Turkish army here.

Here is the text of the announcement: "Ten big armored vessels on February 25 again bombarded the Turkish forts at the Dardanelles for a period of seven and a half hours. At the conclusion of this operation they retired in the direction of the island of Tenedos."

"One ship of the Agamemnon type and two other armored vessels were damaged by the fire from the forts on the Asiatic side of the straits."

It was announced from London last night that all the forts at the entrance of the Dardanelles had been reduced by the fleets of Great Britain and France, a naval force which has been estimated at something over thirty vessels.

The English communication made no mention of losses either to vessels or to men. It described the operations as successful and said they were continuing.

The Dardanelles are the key to Constantinople and the effort to force them has been going on since the middle of December. In possession of this waterway, which is a strait about 45 miles long, and from one to three miles wide, between the Sea of Marmora and the Mediterranean, the warships of the allies would not encounter any serious difficulty in making their way to Constantinople and training their great guns on the Turkish capital.

Turkey always has relied on the strength of the Dardanelles fortifica-

was the property of Dr. G. C. Emery of Holladay, and had been stolen from in front of the Kalkreuth Bank building on Main street shortly after 5 o'clock in the afternoon. The theft was reported to the police, but nothing was learned of the missing car until it was identified by the license number as the one which struck the buggy occupied by Mr. and Mrs. Cardwell.

The unknown driver of the stolen car leaped from the machine when it struck the buggy and disappeared. Eyewitnesses to the accident were able to furnish the police only a meager description of the man. He was driving north on Seventh East street at a high rate of speed, and crashed into the Cardwell buggy at the intersection of Third South street with an impact which overturned the latter vehicle. Neither Cardwell nor his wife were able to walk, and were removed to the police emergency hospital by a passing auto driver. They were examined by Dr. H. B. Sprague, who later removed them to their home in the police ambulance. Dr. Sprague later reported that he had found no broken bones, but feared complications arising from internal injuries to Mrs. Cardwell.

AUTO HITS BUGGY, INJURING TWO

Salt Lake, Feb. 26.—Mr. and Mrs. C. A. Cardwell, 1138 Bryan avenue, while riding in a single buggy at 8:45 o'clock last night, were thrown from the vehicle when an automobile crashed into them at Third South and Seventh East streets, both suffering serious injuries to the spine. The automobile which struck the buggy

THREE KILLED IN AUTO ACCIDENT

Honolulu, T. H., Feb. 25.—Mrs. Miles Bell and Mrs. Mattie F. Rule, both of Portland, Ore., and a Hawaiian citizen were killed last night in an automobile accident on an automobile road leading to the volcano of Kilaua, Island of Hawaii, according to wireless received today from Honolulu. Mrs. Rule formerly lived in Washington, D. C.

The women were members of an excursion which made the trip to the islands on the steamer Great North-east, which touched at several California points after its first voyage through the Panama canal from Philadelphia.

WAR BULLETINS

Paris, Feb. 26, 11:25 a. m.—Sixty-four applications for passports from American artists living in Paris have been refused by the American embassy in conformity with instructions recently received from the state department at Washington requiring the presentation of birth certificates. The American Art Association of Paris has forwarded to Washington a protest against the enforcement of regulations which, it is said, make it impossible for American citizens abroad to enjoy the protection.

Berlin, Feb. 26, via London, 5:13 a. m.—The Bundesrath, having learned that German farmers were using potatoes too freely for fodder, has raised the prices of potato products. It is believed this will prevent the consumption of potatoes by cattle. In

Save the Babies.**INFANT MORTALITY** is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria pores of the skin and allays fever. Genuine Castoria always bears the signature of *Chas. H. Fletcher*.**All who attend Monday's session of the Standard****FREE HOME ECONOMICS SCHOOL**
